

UV Disinfection Lamp

Handheld mini portable

Instructions

- *Kindly noted: keep it out of eyes and skin, Children under 12 are not allowed!!!
- *This product is a portable hand-held disinfection lamp with light body and easy operation. The use of LED to emit ultraviolet rays with appropriate wavelengths can destroy the molecular structure of DNA or RNA in cells of microbial organisms, resulting in the death of growing cells and/or regenerative cells, thus achieving the effects of sterilization and disinfection .
- *Place the UVC lamp downward at a height of 15-20 cm from the object to be disinfected and press the start button to emit ultraviolet rays to disinfect the object.

Product Description

Product name: UV disinfection lamp
Product model: BB-VP-3W-N2
Power: 3W DC
Product size: 125*35*25mm
Power Supply: 4*AAA batteries(Not included)
 /5V USB input
Ultraviolet Wavelength: 253.7nm
Application: Toilet , Crawling mat ,Crib ,

Features

Mask, Mobile phone, toothbrush, pet items, and other objects.
